To Whom It May Concern

It is my absolute pleasure to recommend **Dr. Sajjad Shaukat Jamal**; I supervised him as a PhD Supervisor from 2014-2018 and came to know him as one of my valuable and hardworking students. He received his PhD degree in the field of Mathematics (Application of algebraic structures in Cyber Security). I find him honest, dependable, and incredibly hardworking. He completed his due course work, comprehensive exams and published numerous research papers. Even, after his PhD degree, we worked on various new research papers which are published in prestigious journals and available online.

His role as a senior research assistant in Quaid-i-Azam University under my supervision was a huge advantage to our entire team and other research students. He has strong verbal and communication skills.

Along with his undeniable academic talent, **Sajjad Shaukat Jamal** has always been an absolute joy to work with. He has interpersonal skills which makes him true team man, and always foster positive discussion and bring the best out of the other research fellows. He is a true gentleman and a good human.

Without a doubt, I confidently recommend **Sajjad Shaukat Jamal** for a job in your prestigious institute. As a dedicated and knowledgeable researcher and an all-around good human being, I know that he will be a beneficial addition for the United States.

Please feel free to contact me to discuss his qualifications and experience further. I would be happy to expand on my recommendations.

Best regards,

Professor Dr. Tariq Shah
Chairman Department of Mathematics
